February 2, 2012

To whom it may concern:

We have used the services of Southeast Secure Shredding for many years. They are professional, courteous, and do an excellent job. I have nothing but good things to say about their service and their company.

In the past, we had purchased an expensive shredder that required labor intensive hours to run. This equipment would frequently break down and the shredded documents still had to be disposed of on a daily basis.

When Southeast came to us, we discovered that it was not only more efficient but much more economical to use their services. I would highly recommend them to any business in need of shredding services.

Sincerely,

Mary Lynne MacDonald
Administrator
